

LED EMERGENCY LIGHT

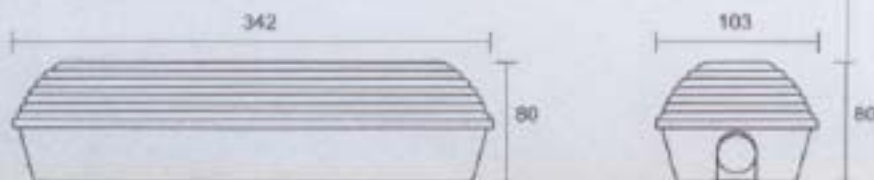

Features

- Polycarbonate housing to prevent corrosion and rust
- 24 pieces super bright white LED light sources
- Minimum 3 hours emergency operation
- Momentary test switch
- Solid stage charging and switching
- Low voltage cut off to prevent battery from over discharge
- Clip on clear polycarbonate diffuser to provide maximum efficiency
- Suitable for ceiling and wall installation
- Red LED ON to indicate main available and battery charging

Technical Data

Operating Voltage	240 VAC
Emergency Operation Duration	Minimum 3 Hours
Battery	12V 0.8AH Lead Acid Battery
Battery Testing	Momentary Test Switch
Power ON Indicator	Red LED
Recharge Period	24 Hours
Charger	Solid State Charger
Light Source	28 pieces Supper bright white LED
Mode	Non Maintained
Enclosure Material	Polycarbonate White Base And Clear Polycarbonate Diffuser
Weight	1 Kg

Dimension (mm)
